Article 8.00 - Commitment to Equity and Anti-Racism

The Council (SSTAC) is committed to creating a safe, equitable, and inclusive transportation system to provide accessible and dignified mobility for all. We recognize, however, that transportation systems in the United States, including Humboldt County, are not equitable.

“Equity is the presence of justice and fairness within the procedures, processes, and distribution of resources by institutions or systems. Facing equity issues requires an understanding of the underlying or root causes of inequalities and oppression within our society.”¹

We acknowledge that federal, state, and local transportation systems throughout the United States are built upon the foundation of structural racism that disproportionately privileges white people, and harms black, indigenous, people of color (BIPOC).

We acknowledge that the foundation of structural racism also causes other transportation inequities for the elderly, people with disabilities, and economically disadvantaged people.

We are committed to doing more to expose and eliminate policies that perpetuate racism, including structural inequality and environmental racism.

We commit to promoting anti-racist policies, to recommending anti-racist projects and programs that will bring mobility justice outcomes, and to dismantling oppression in transportation and land use decision-making.

The Council’s (SSTAC’s) responsibilities shall include the following:

- The Council will pay special attention to delivering service to Humboldt’s most vulnerable residents. The Council commits to lifting up the transportation needs of the most marginalized members of our communities.
- The Council will identify when transit and transportation policies, programs, or projects are sustaining, or may sustain, existing inequities in our communities, and will work to ensure that SSTAC recommendations do not perpetuate or exacerbate existing inequities. This includes recognizing that risks, deprivations, and inconveniences stemming from an imbalanced transportation system often disproportionately burden communities of color, people with low incomes, and the elderly.

Article 8.9.00 - Amendments

These By-laws may be amended by action of the HCAOG Board.
