Fact Sheet Updated 10/26/21

WHAT IS THE DISTRICT 1 ACTIVE TRANSPORTATION PLAN?

The District 1 Active Transportation Plan is part of a comprehensive effort to identify locations with bicycle and pedestrian needs in each Caltrans district across California. This Plan identifies challenges to people's ability to walk, cycle, and reach transit on the state highway system in Del Norte, Humboldt, Lake, and Mendocino Counties.

WHAT DOES THE PLAN INCLUDE?

The Plan identifies pedestrian and cyclist needs on and across the state highway system and prioritizes highway segments and crossings to inform future investments. The Plan's main outputs are a list and map of location-based needs and prioritized highway segments.

The Plan also includes information on statewide context, public engagement, walking and cycling in District 1 today, and next steps.

HOW WAS THE PLAN DEVELOPED?

Highway features such as number of lanes, speed limits, traffic signals, and adjacent land uses were collected to identify areas needing improvements for people walking and bicycling. Needs were also identified by community members through an online survey. Caltrans District 1 staff reached out to hundreds of community-based organizations by phone and email to ask them to take the survey and share the link with others.

Staff worked closely with a technical advisory group made up of partners including regional transportation planning agencies, local public works departments, transit providers, public health departments, pedestrian and bicycle advocates, and interested community members to ensure the plan is accurate and reflects the unique community contexts across the district.

I KNOW A LOCATION THAT NEEDS IMPROVEMENT!

You can still take our survey to let us know where improvements are needed for walking and bicycling:
