AGENDA ITEM 7a
TAC Meeting
October 2, 2025

DATE: September 22, 2025
TO: Technical Advisory Committee (TAC)
FROM: Brendan Byrd, Executive Director
SUBJECT: **2026 Pavement Management Plan Update**

STAFF REPORT

Contents:

- Staff Summary
- 2021 PMP Scope of Work

Discussion Item

Staff Summary:

HCAOG leads the development of the region-wide Pavement Management Plan (PMP) update every five years. The previous update was completed and approved in early 2022, and therefore staff are now beginning to work on the Request for Proposals (RFP) that will be issued later this calendar year. Staff anticipate that consultant selection will be complete in late winter 2026, and that the selected consultant will be able to complete pavement condition surveys during the summer/fall months of 2026.

Attached to the staff report is the consultant scope of work that was included in the 2021 PMP RFP. Staff are seeking direction from the TAC on the contents of the scope of work, principally surrounding any TAC recommendations to modify or augment the scope of work.

One item staff are seeking specific input on is the training section of the RFP scope. In previous years the RFP has requested that proposers include a task in their scope to conduct field pavement condition ‘courses’, which can help train local agency staff to identify pavement condition issues and their correspondence pavement condition index (PCI) classifications. Another item historically included is training for the PCI software that HCAOG provides to local agencies, StreetSaver. Staff are seeking directions from the TAC on if this item should be included again in 2026.

Any input received from the TAC will be included in the final RFP, which will likely be issued in November. HCAOG staff will also be requesting that several members of the TAC participate in a proposal scoring committee and welcome any volunteers at this time. Historically two TAC members have participated in proposal scoring.
