Number of Questionnaires Distributed: 0

Number of Questionnaires Analyzed for Report: 121

This report contains information from parents about their children's trip to and from school. The report also reflects parents' perceptions regarding whether walking and bicycling to school is appropriate for their child. The data used in this report were collected using the Survey about Walking and Biking to School for Parents form from the National Center for Safe Routes to School.

Sex of children for parents that provided information

No response: 60

Note:

--Factors are listed from most to least influential for the 'Child does not walk/bike to school' group.

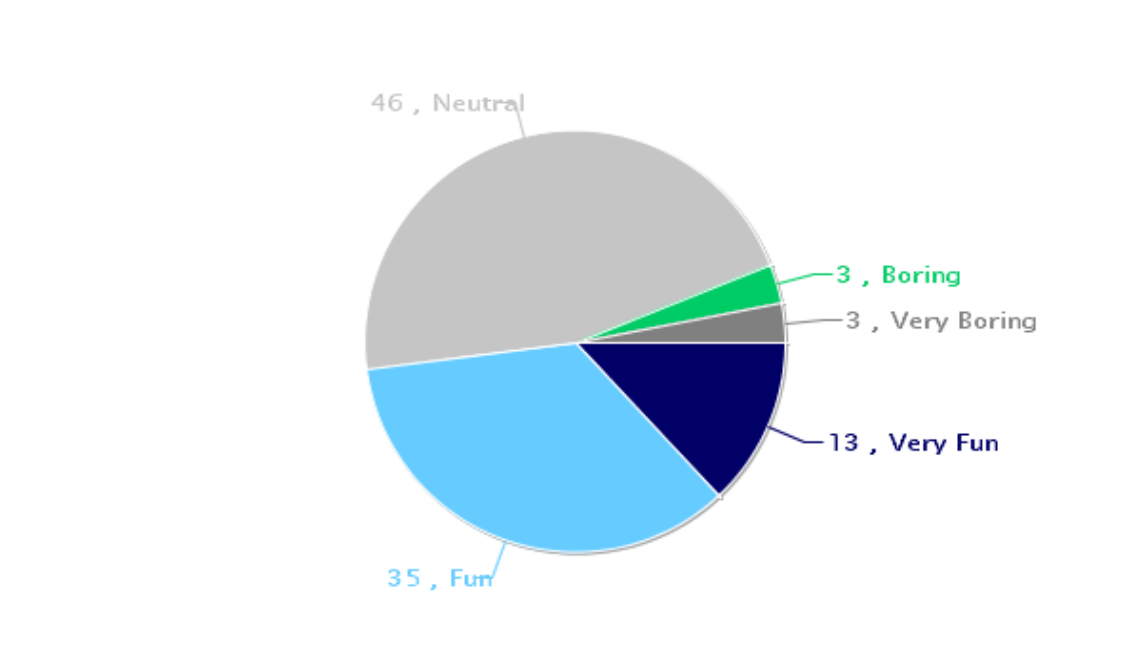

--Each column may sum to > 100% because respondent could select more than issue

--The calculation used to determine the percentage for each issue is based on the 'Number of Respondents per Category' within the respective columns (Child does not walk/bike to school and Child walks/bikes to school.) If comparing percentages between the two columns, please pay particular attention to each column's number of respondents because the two numbers can differ dramatically.

Parents' opinions about how much their child's school encourages or discourages walking and biking to/from school

Parents' opinions about how much fun walking and biking to/from school is for their child

Parents' opinions about how healthy walking and biking to/from school is for their child

Comments Section

SurveyID	Comment
1587855	As a parent, I believe that walking to school and back is a great idea, however, there are some reasons why I do not allow them to walk including safety reasons with traffic and no crossing guards; the weather and the time.
1587889	My kids walk and ride their bikes when they don't have school. Ex: weekends, no school, and after school.
1587916	In an ideal situation whereby the crime rate is low, adults drive responsibly, the distance isn't a hindrance, and the weather is mild year-round, perhaps walking/biking would be a more feasible reality. Nevertheless, these setbacks are not at all the fault of the school itself.
1587922	We live in a different town and have to travel 20 miles along a highway. Walking and/or biking is not an option.
1587834	Walk with kids on weekends and sometimes after school and work. Can't really have them walk during school times in the morning or right after school because of busy schedule in between.
1587900	We live way too far from school for him to walk or ride a bike to school.
1587917	He has no problem walking to and from school. He is not allowed to walk alone. Weather permitting, he walks home more than to school.
