Number of Questionnaires Distributed: 0

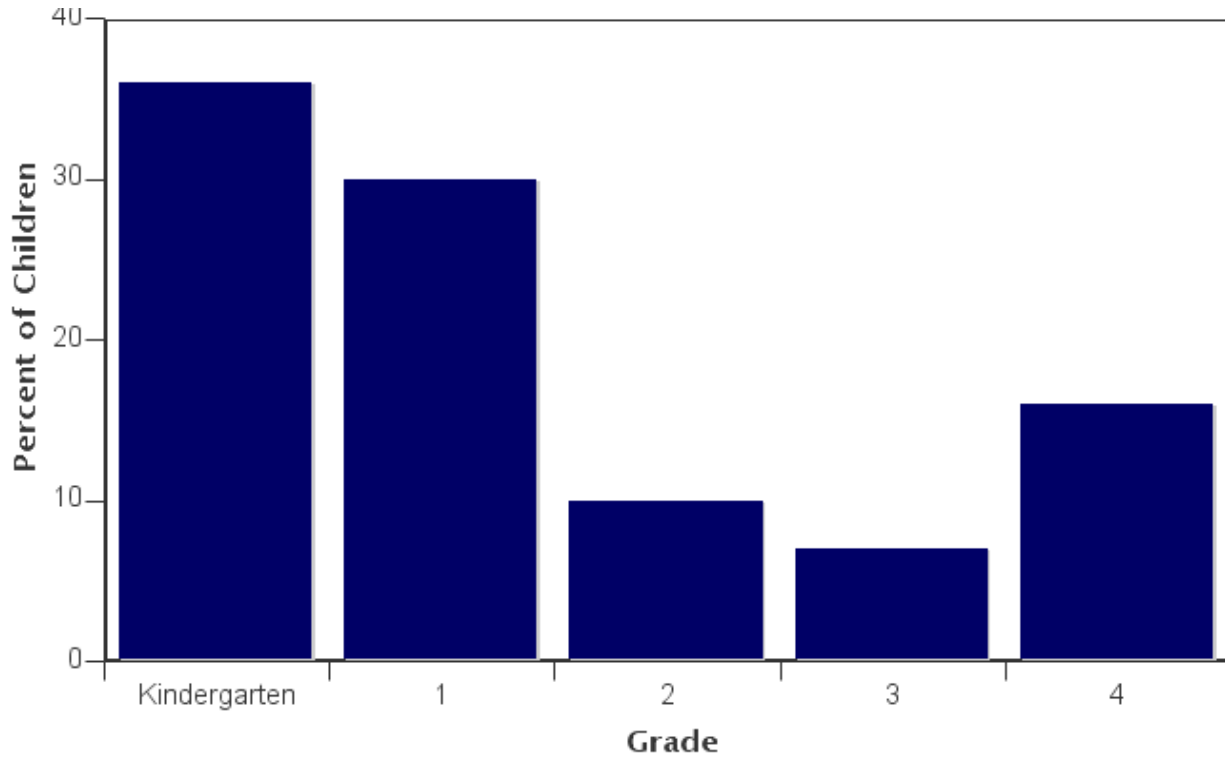

Number of Questionnaires Analyzed for Report: 67

This report contains information from parents about their children's trip to and from school. The report also reflects parents' perceptions regarding whether walking and bicycling to school is appropriate for their child. The data used in this report were collected using the Survey about Walking and Biking to School for Parents form from the National Center for Safe Routes to School.

Sex of children for parents that provided information

Grade levels of children represented in survey

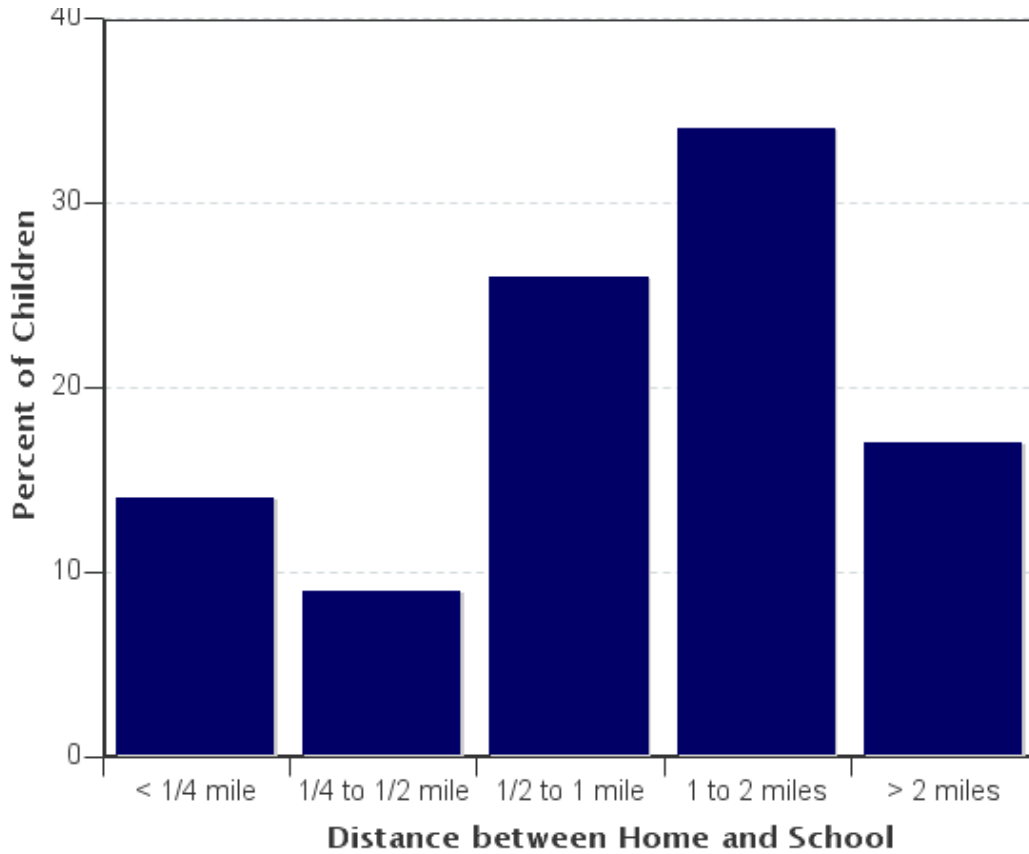

Grade levels of children represented in survey

Grade in School	Responses per grade	
	Number	Percent
Kindergarten	24	36%
1	20	30%
2	7	10%
3	5	7%
4	11	16%

No response: 0

Percentages may not total 100% due to rounding.

Parent estimate of distance from child's home to school

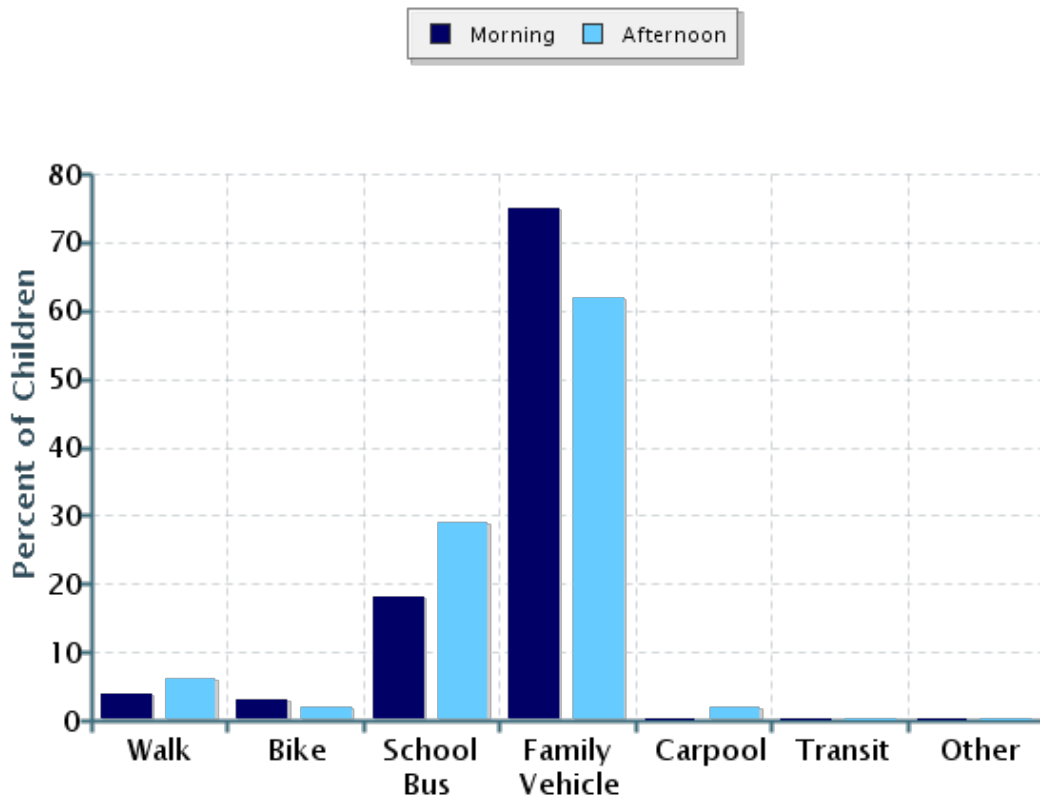

Parent estimate of distance from child's home to school

Distance between home and school	Number of children	Percent
Less than 1/4 mile	9	14%

No response: 25

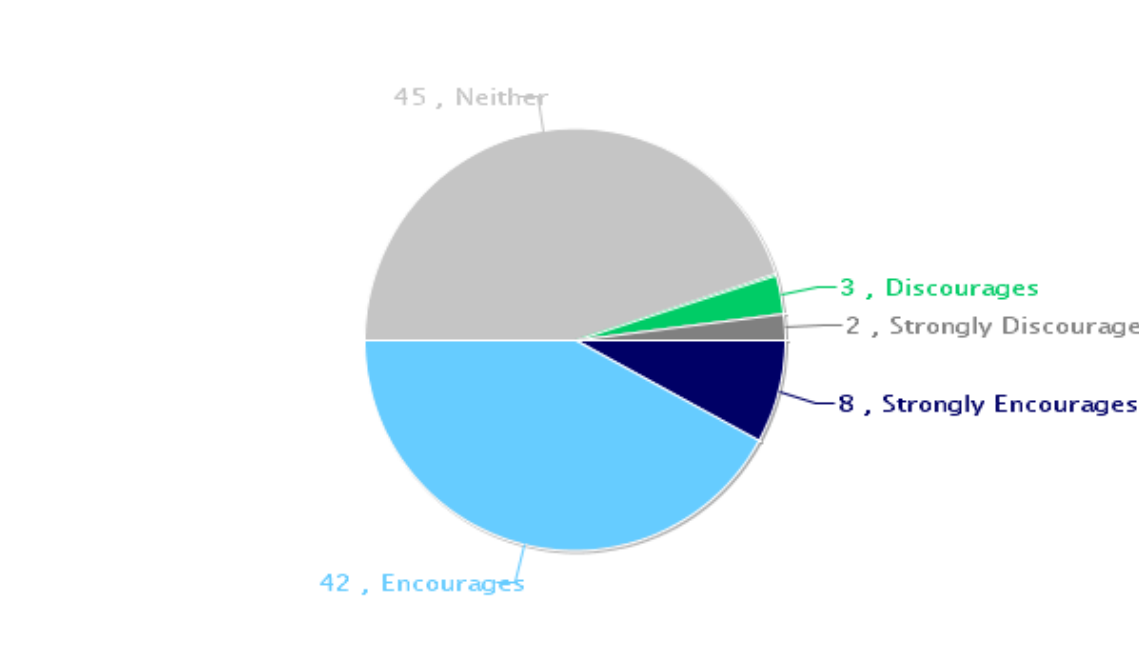

Note:

--Factors are listed from most to least influential for the 'Child does not walk/bike to school' group.

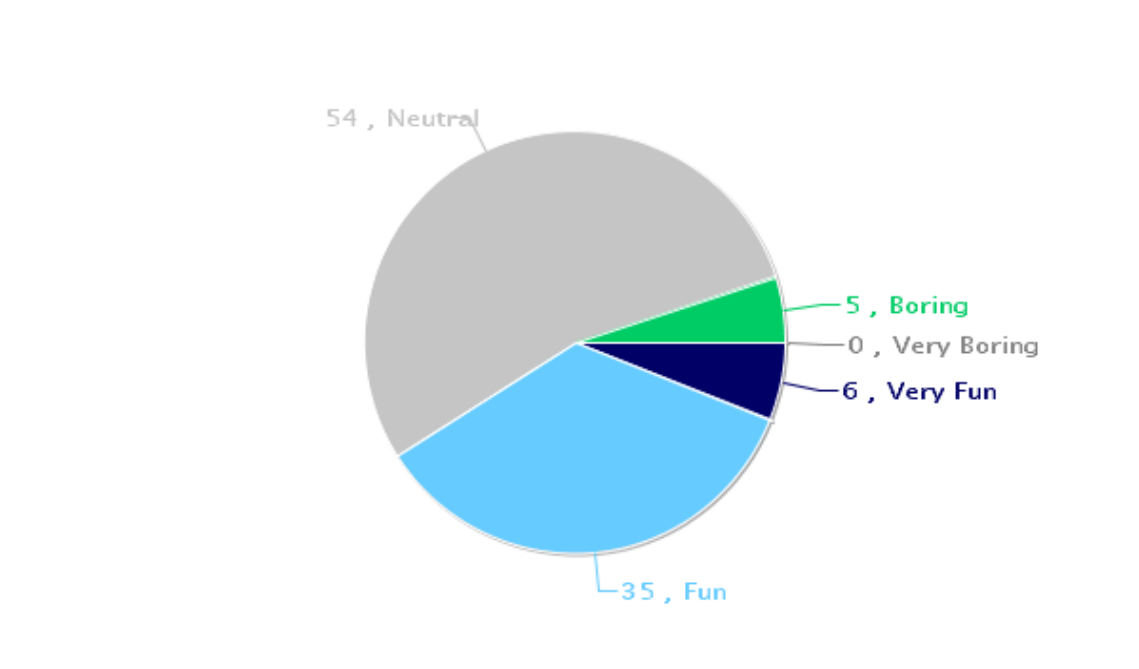

--Each column may sum to > 100% because respondent could select more than issue

--The calculation used to determine the percentage for each issue is based on the 'Number of Respondents per Category' within the respective columns (Child does not walk/bike to school and Child walks/bikes to school.) If comparing percentages between the two columns, please pay particular attention to each column's number of respondents because the two numbers can differ dramatically.

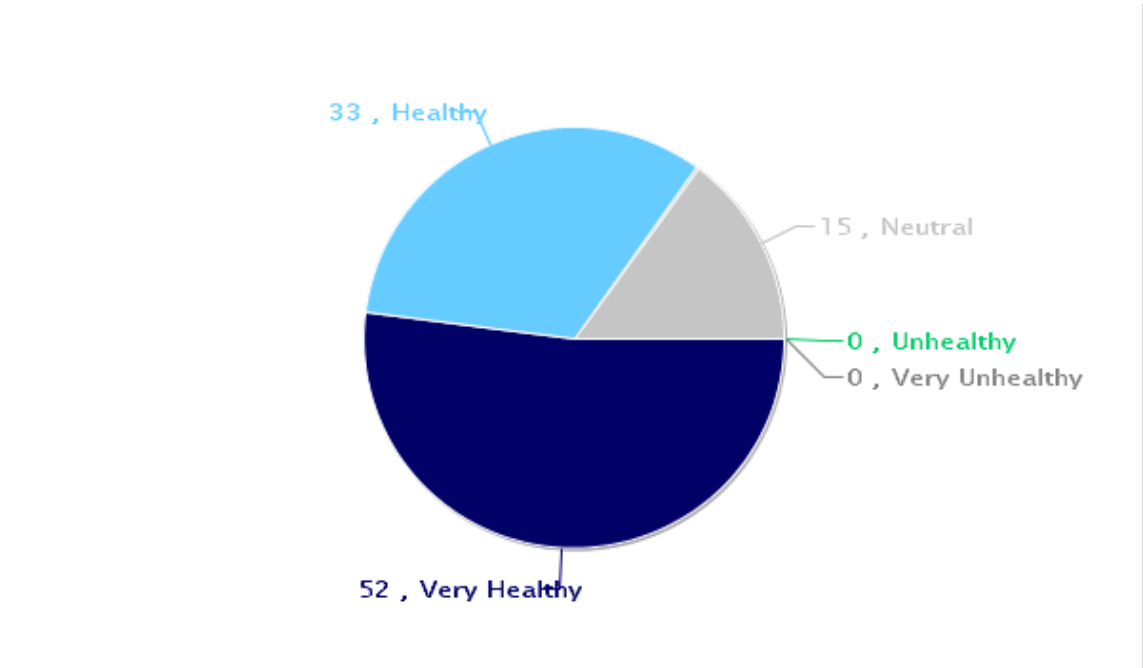

Parents' opinions about how much their child's school encourages or discourages walking and biking to/from school

Parents' opinions about how much fun walking and biking to/from school is for their child

Parents' opinions about how healthy walking and biking to/from school is for their child

Comments Section

SurveyID	Comment
1691040	We live out of district.
1691072	No pedestrian access on Redwood Way.
1690977	At this point, the main issue is my child's age.
1690993	If there were crossing guards or police around more (especially intersections) it would be easier to walk/ride. People just don't pay attention.
1691044	Ambrosini has an excellent crossing guard. We live next door to the school. Walking is the only option. I feel very safe with him walking. The school has provided a very safe walking route. I say not till 3rd grade can he walk alone. He is so easily distracted.
1691061	My children live 13 plus minutes from their school. They will never be able to ride from home to school.
1691047	The addition of sidewalks along Rohnerville a few years ago made the route much safer. The intersection at Kenwood and Rohnerville can be difficult to navigate at times of congestion.
1691048	We just live too far of a distance along a very busy section of road. As of now, neither myself or child is confident enough to bike/walk to school.
1690973	I would love to walk my child to school but feel the school is too far and not safe for a child alone.
1691037	We are well beyond walking or biking range also bus. If we lived within a block or two of the school, I, his mother would walk him some days.
