Number of Questionnaires Distributed: 0

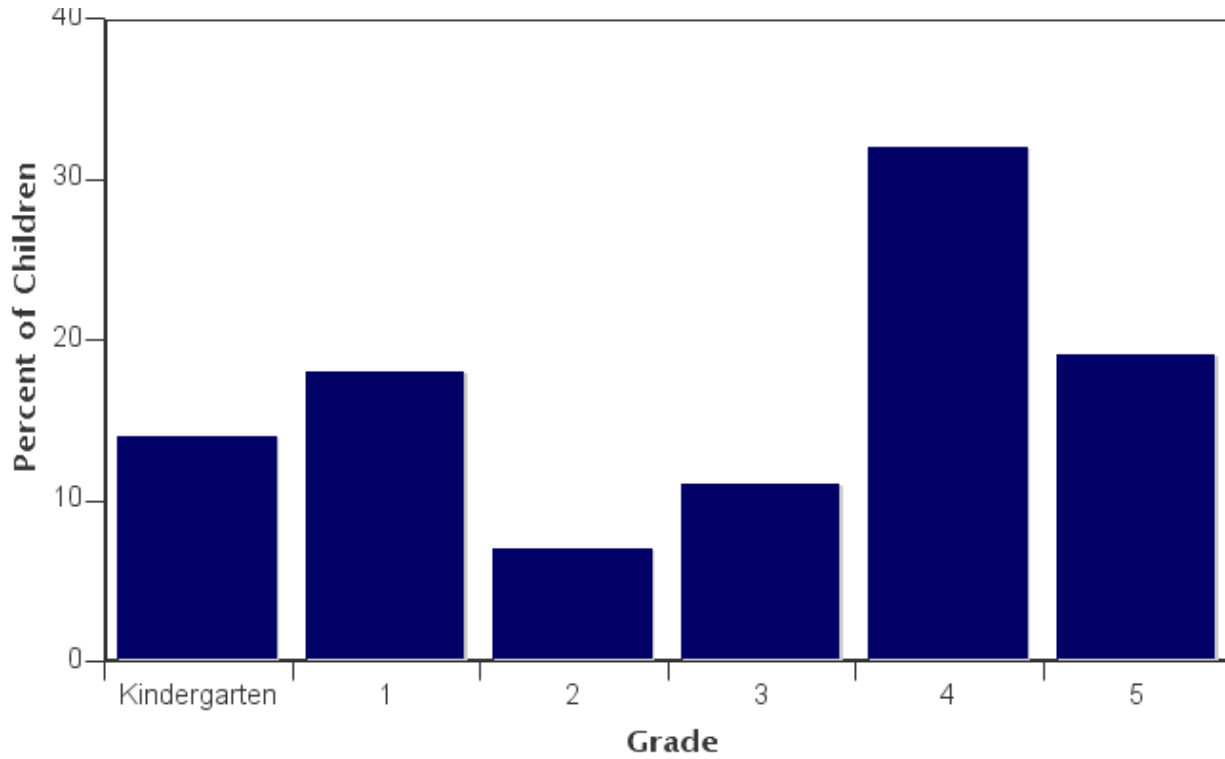

Number of Questionnaires Analyzed for Report: 58

This report contains information from parents about their children's trip to and from school. The report also reflects parents' perceptions regarding whether walking and bicycling to school is appropriate for their child. The data used in this report were collected using the Survey about Walking and Biking to School for Parents form from the National Center for Safe Routes to School.

Sex of children for parents that provided information

No response: 19

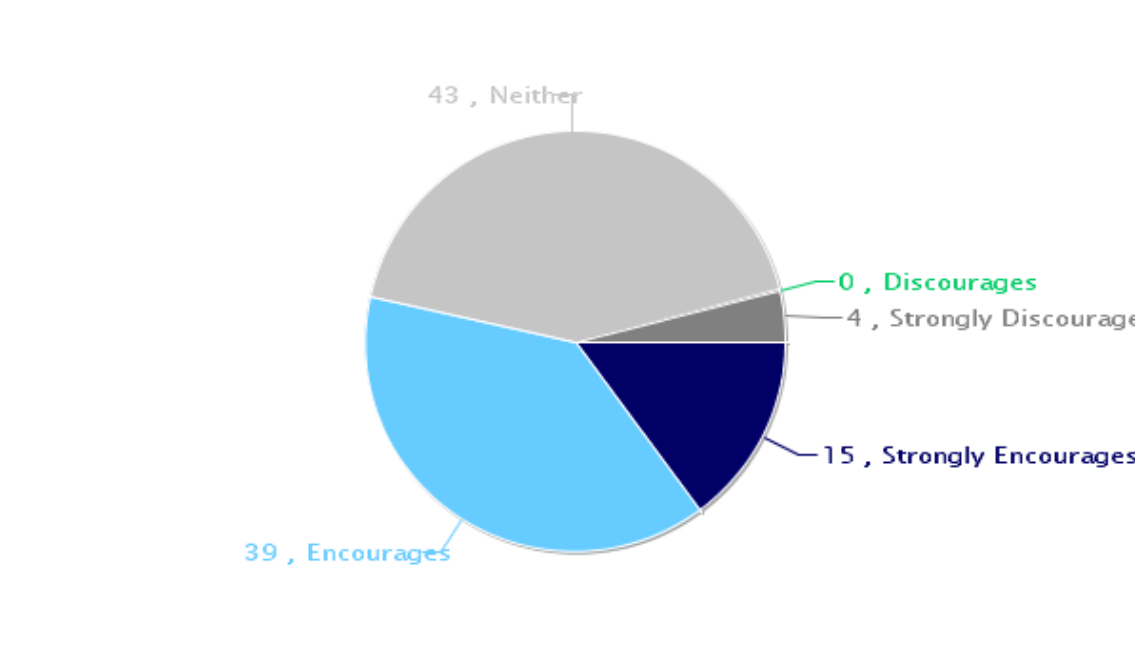

Note:

--Factors are listed from most to least influential for the 'Child does not walk/bike to school' group.

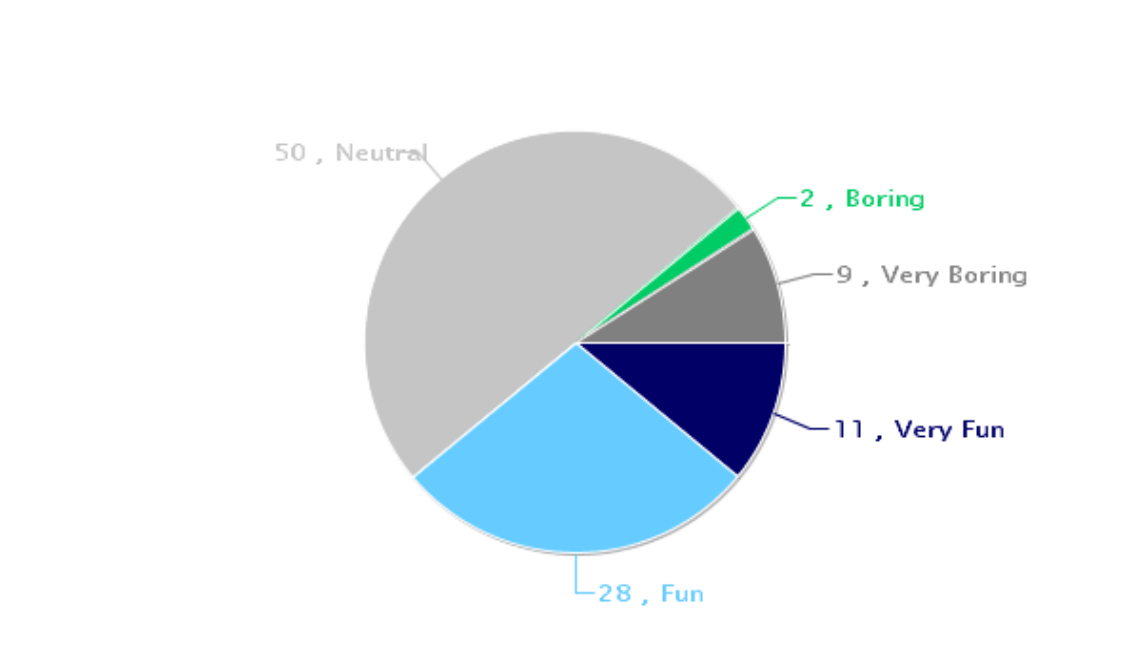

--Each column may sum to > 100% because respondent could select more than issue

--The calculation used to determine the percentage for each issue is based on the 'Number of Respondents per Category' within the respective columns (Child does not walk/bike to school and Child walks/bikes to school.) If comparing percentages between the two columns, please pay particular attention to each column's number of respondents because the two numbers can differ dramatically.

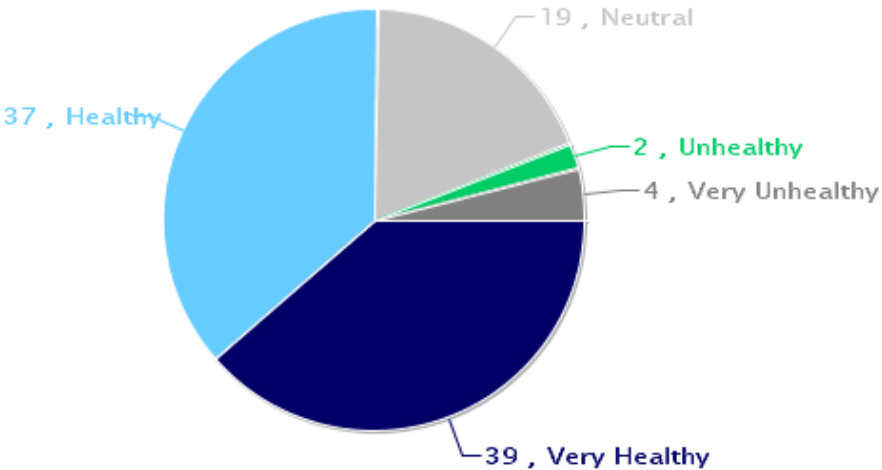

Parents' opinions about how much their child's school encourages or discourages walking and biking to/from school

Parents' opinions about how much fun walking and biking to/from school is for their child

Parents' opinions about how healthy walking and biking to/from school is for their child

Comments Section

SurveyID	Comment
1647820	We walked to school all last year. The first couple of months have been busy, but we will be walking again starting this month.
1632100	I think this is a wonderful idea to walk or bike, unfortunately, we live too far away. Everybody benefits when a child walks/bikes to school.
1648152	My child is ADHD/ASD. He cannot safely cross a street or stay on the sidewalk.
1648178	Too much traffic, unsafe drivers, and distance is why we drive our son to and from school.
1648232	Question #9 comment: Grade 3 alone , 2nd if with a friend but we are new to neighborhood. We will let him walk, but he is 6 and easily distracted. Need to practice safety, being aware, and looking for cars!!
1648234	Question#6: Student also leaves from school by family vehicle. Question #8: No Camina sola, solo conmigo
1647808	Large amount of homeless, drug addicts, and predators in our community.
1647823	The fact that we only have 1 child also affects our decision.
1648224	Question #6: Student also arrives to school by Carpool and also leaves from school by transit.
1647707	I don't foresee any of the problems listed above improving any time soon so this is a moot point, I'm afraid.
1647755	Home is too far from school. I wouldn't let my kids walk that far. The speed and traffic as well as the sideways are unsafe for any children to be walking out there. It is better to drive to avoid accident along the route. I agree that driving is not free of accident but I feel much safer seeing and sending the children off to school on my own. Thanks for encouraging everyone to make use of other transportation.
1647814	I live very far away from school so it would be unsafe for my child to walk/bike to/from school probably at anypoint unless we move closer at some point.
1647804	This is really not important and really invasive!
1647772	Question#14 comment: Very Unhealthy due to traffic.
1647757	Question #6: Student also arrives to school and leaves school by carpool.
