Number of Questionnaires Distributed: 0

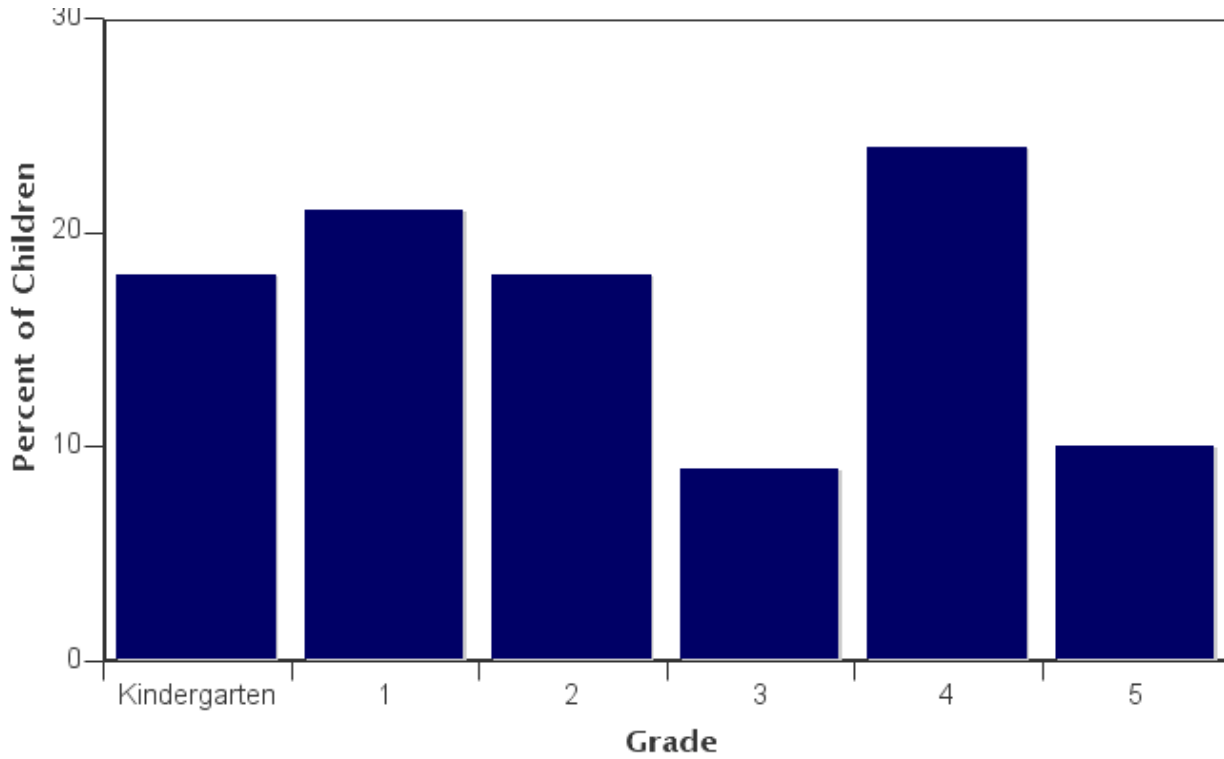

Number of Questionnaires Analyzed for Report: 92

This report contains information from parents about their children's trip to and from school. The report also reflects parents' perceptions regarding whether walking and bicycling to school is appropriate for their child. The data used in this report were collected using the Survey about Walking and Biking to School for Parents form from the National Center for Safe Routes to School.

Sex of children for parents that provided information

Grade levels of children represented in survey

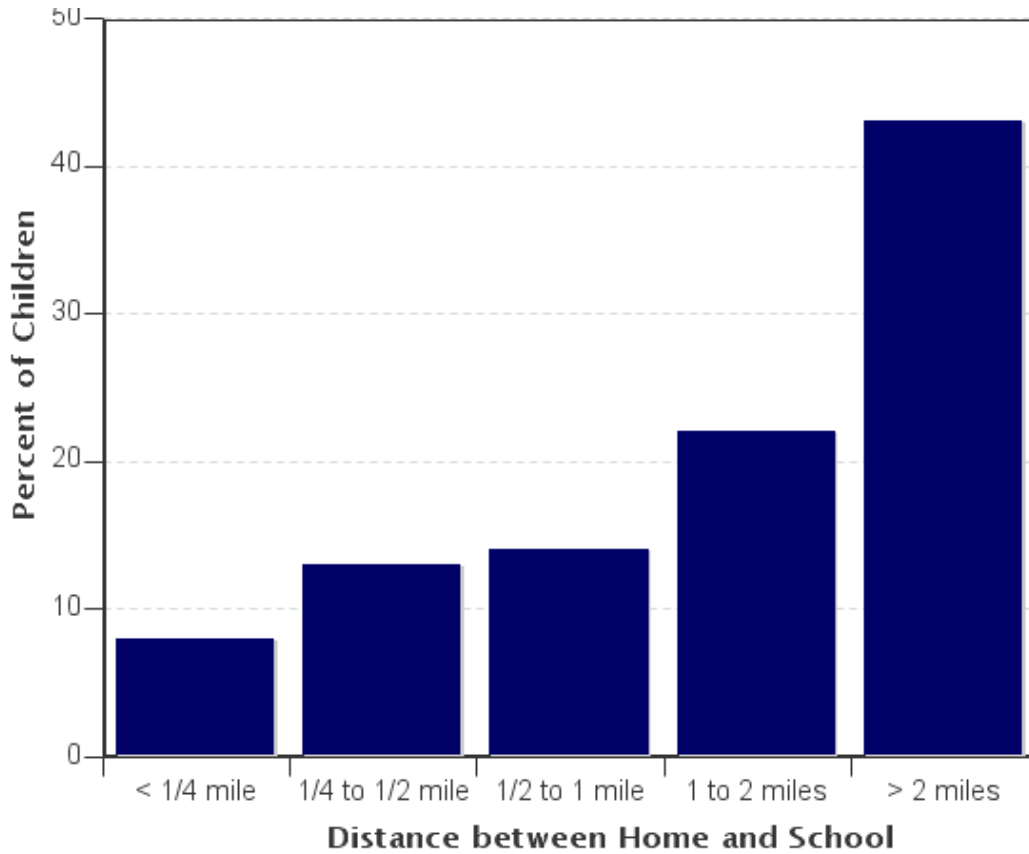

Grade levels of children represented in survey

Grade in School	Responses per grade	
	Number	Percent

No response: 40

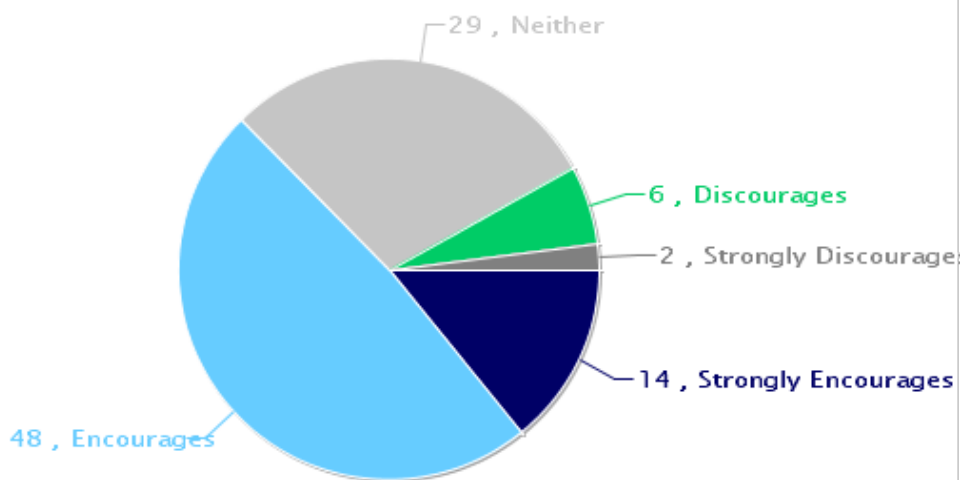

Note:

--Factors are listed from most to least influential for the 'Child does not walk/bike to school' group.

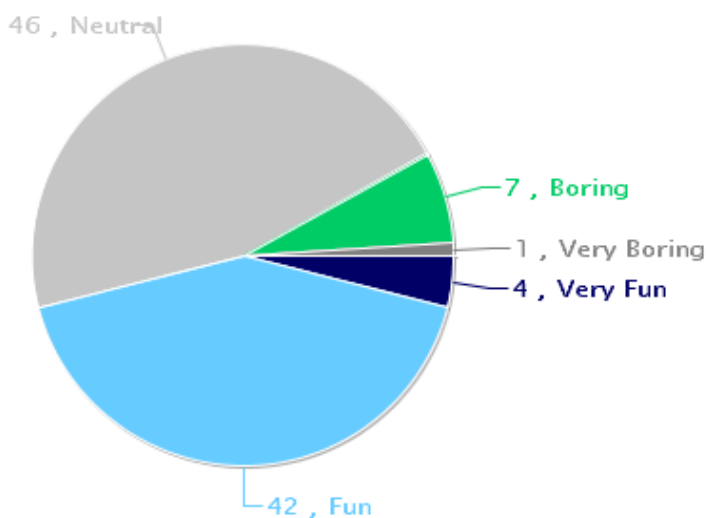

--Each column may sum to > 100% because respondent could select more than issue

--The calculation used to determine the percentage for each issue is based on the 'Number of Respondents per Category' within the respective columns (Child does not walk/bike to school and Child walks/bikes to school.) If comparing percentages between the two columns, please pay particular attention to each column's number of respondents because the two numbers can differ dramatically.

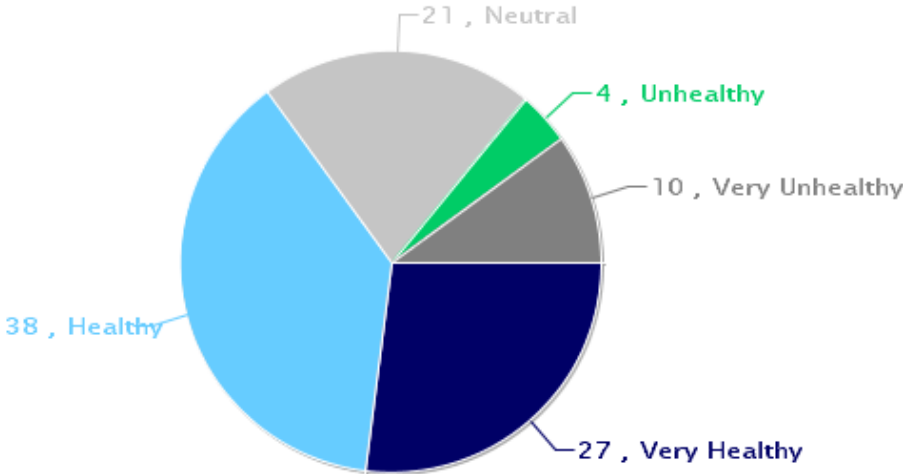

Parents' opinions about how much their child's school encourages or discourages walking and biking to/from school

Parents' opinions about how much fun walking and biking to/from school is for their child

Parents' opinions about how healthy walking and biking to/from school is for their child

Comments Section

SurveyID	Comment
1585080	I walk my child to school because she is too young to walk by herself and it's safer with me being able to watch for people who speed and don't stop at the crosswalks.
1585988	The traffic in the mornings is really high. Specially on Fridays when the garbage truck is picking up the waste. Many drivers are crazy running.
1585072	I'd be willing to be a "checkpoint" or crossing guard between West and McFarlan, if another adult or older student could walk the younger ones the rest of the way.
1585927	It would be fun to arrange and complete a meet and walk to school for the kids further away (closer to school of course).
1585173	ADHD - highly impulsive
1585925	If I didn't have children that were put in schools across town, I could walk with them.
1585932	I like the remote d/o idea, but we would only use it in the morning and if school has personnel to ensure safe crossings.
1585069	We walk the kids to and from school for safety.
1585981	If I didn't have my TK child in a school all the way across town, I could walk with.
1585999	I'm not sure what the intention(s) of the questionnaire are. Seems it could be more concise! My kids love walk to school days!
1585083	I don't feel like it is very safe to let children walk or bike alone. If there was a group that me a few blocks from the school I would drop my son and let him walk. Safety in numbers.
1585188	too far and too busy (cars)
1585163	Walking alone with our child will be a choice but letting him go alone will not be safe.
1585068	My son has seizures and severe asthma. I don't want him walking to school.
1585996	My child can not walk to school. He is in a special day program which does not seem to have been considered.
