Number of Questionnaires Distributed: 0

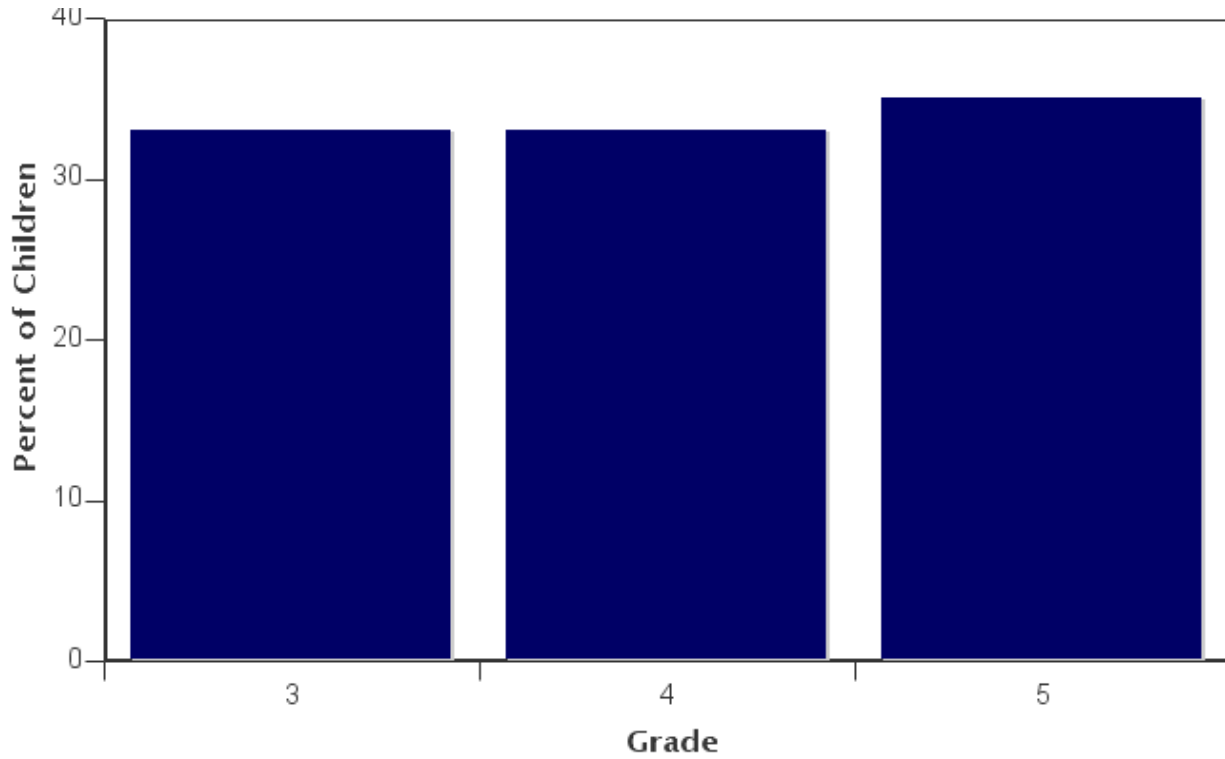

Number of Questionnaires Analyzed for Report: 111

This report contains information from parents about their children's trip to and from school. The report also reflects parents' perceptions regarding whether walking and bicycling to school is appropriate for their child. The data used in this report were collected using the Survey about Walking and Biking to School for Parents form from the National Center for Safe Routes to School.

Sex of children for parents that provided information

Grade levels of children represented in survey

No response: 51

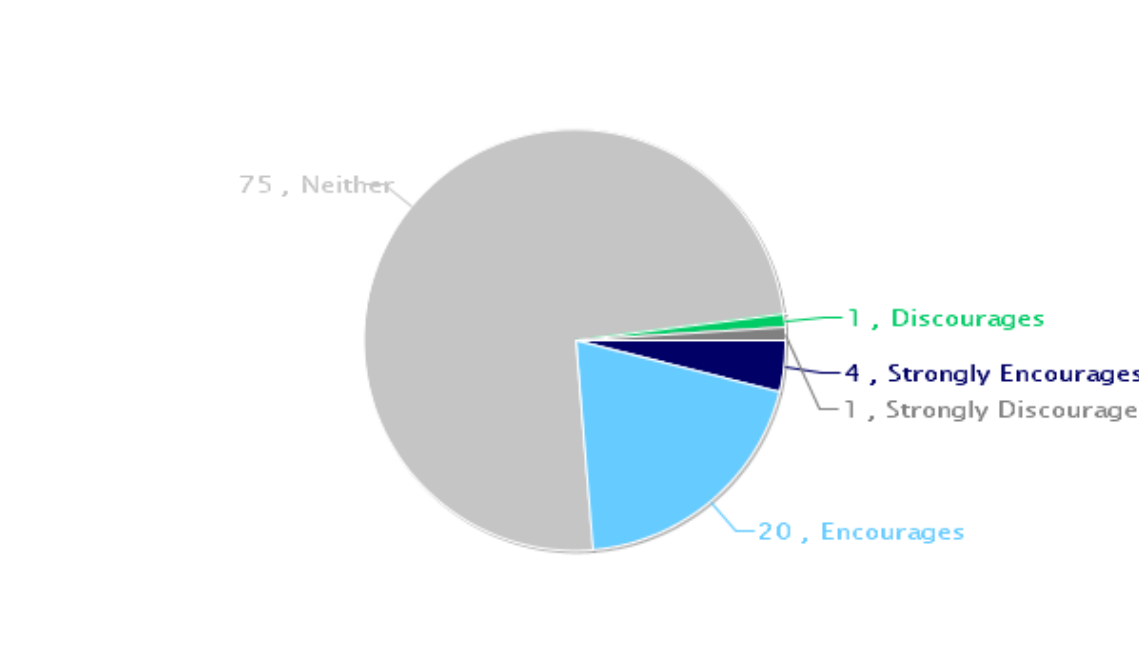

Note:

--Factors are listed from most to least influential for the 'Child does not walk/bike to school' group.

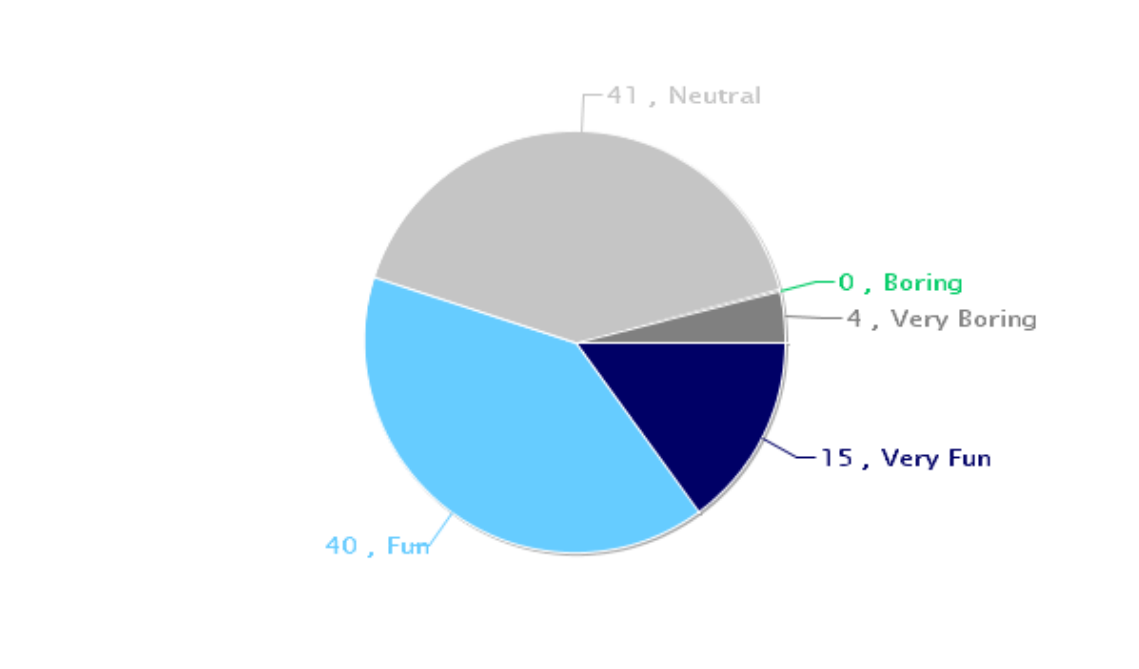

--Each column may sum to > 100% because respondent could select more than issue

--The calculation used to determine the percentage for each issue is based on the 'Number of Respondents per Category' within the respective columns (Child does not walk/bike to school and Child walks/bikes to school.) If comparing percentages between the two columns, please pay particular attention to each column's number of respondents because the two numbers can differ dramatically.

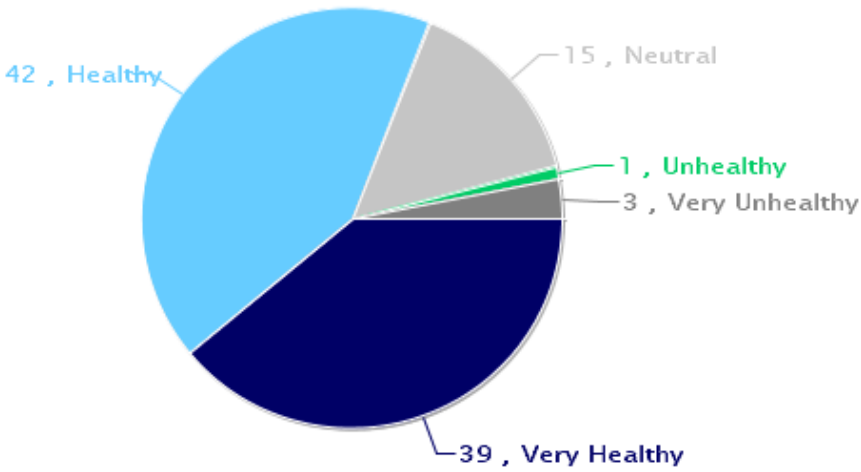

Parents' opinions about how much their child's school encourages or discourages walking and biking to/from school

Parents' opinions about how much fun walking and biking to/from school is for their child

Parents' opinions about how healthy walking and biking to/from school is for their child

Comments Section

SurveyID	Comment
1587120	Bus stop arrives @ 8:01 and school starts at 8:45. I worry about the amount of tweakers along the way.
1587129	I would love for my son to bike/walk to and from school daily but he has been almost ran over while crossing the road at the Murray road/McKinleyville Avenue intersection, that intersection is unsafe.
1587133	I feel people drive way too fast around school zones and worry for my child's safety.
1587317	Every day, sketchy people along the route.
1587278	the intersection at McKinleyville Avenue and Hiller is not safe and there is no sidewalk on one section of McKinleyville Avenue.
1587115	K-8 school please!
1587149	We live 5.6 miles from the school. Regardless of the facts that there are not sidewalks or even shoulders, on the roads to our house and an abundance of vagrants, I feel that distance is too great.
1587273	McKinleyville Avenue from Hiller Road to School Road needs sidewalks.
1587284	I have let student walk but his lack of communication we need to work on.
1587138	There is a lot of foot traffic around the school, in town really I am not comfortable with my child walking alone. Lots of strangers. I may be over protective, but it kind of worries me.
1587116	We live in Trinidad, so walking/biking is not an option.
1587315	Too dangerous for child with ADHD who lacks coordination and cannot pay attention. No place on this surveys asks about the child's abilities.
1587125	I have to drive my son to school because nearest bus stop is over 1/2 mile away. It is not safe for him to walk that far with all the homeless in the area.
