Note:

--Factors are listed from most to least influential for the 'Child does not walk/bike to school' group.

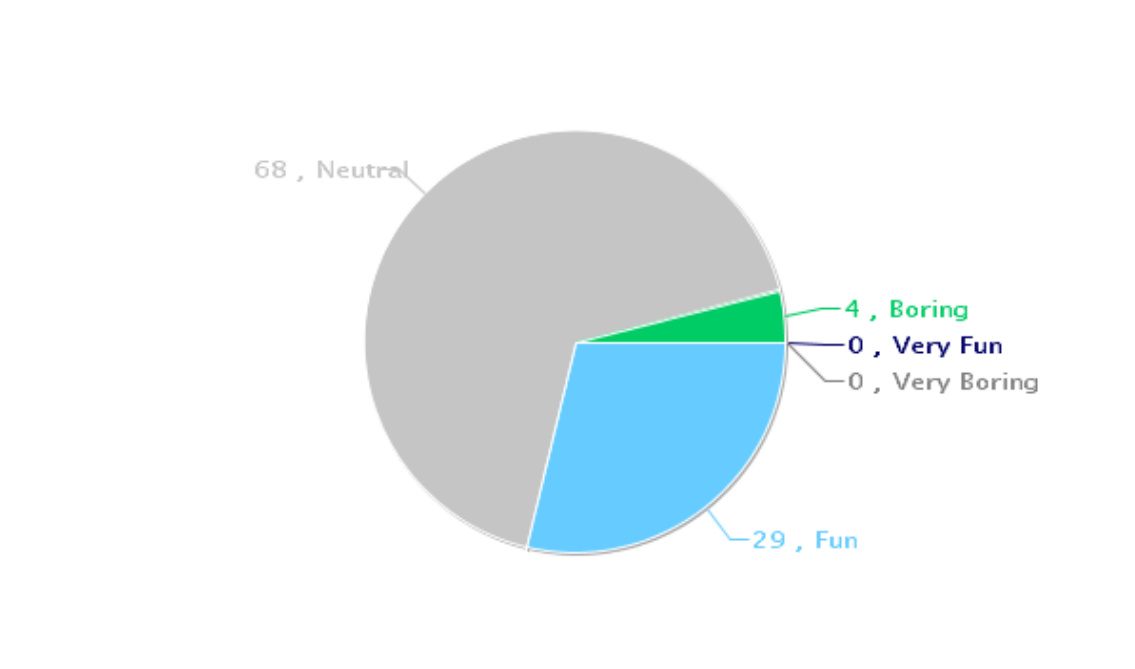

--Each column may sum to > 100% because respondent could select more than issue

--The calculation used to determine the percentage for each issue is based on the 'Number of Respondents per Category' within the respective columns (Child does not walk/bike to school and Child walks/bikes to school.) If comparing percentages between the two columns, please pay particular attention to each column's number of respondents because the two numbers can differ dramatically.

Parents' opinions about how much their child's school encourages or discourages walking and biking to/from school

Parents' opinions about how much fun walking and biking to/from school is for their child

1686967	Our kids don't walk or bike to school because our work schedule is limited.
1686974	We live 35 minutes away from the school.
1686981	There is a parent who is home before and after school, so there is no need for her to walk or bike to school. If school was closer, a parent would always walk or bike with child.
1686932	I think it is important to foster independence. Allowing children to walk/ride to school is a positive experience.
1686939	We live out of district and I drive her to the nearest bus stop in the morning. I pick her up at 5 p.m. at the school.
1686917	In my opinion do we need more intersection and crossing for a safety walk or bike to school.
1686923	We live way too far to walk or bike.
