

# Parent Survey Report: One School in One Data Collection Period

**School Name:** Washington Elementary School

**Set ID:** 18211

**School Group:** Eureka City Schools

**Month and Year Collected:** October 2018

**School Enrollment:** 0

**Date Report Generated:** 02/11/2019

**% Range of Students Involved in SRTS:** Don't Know

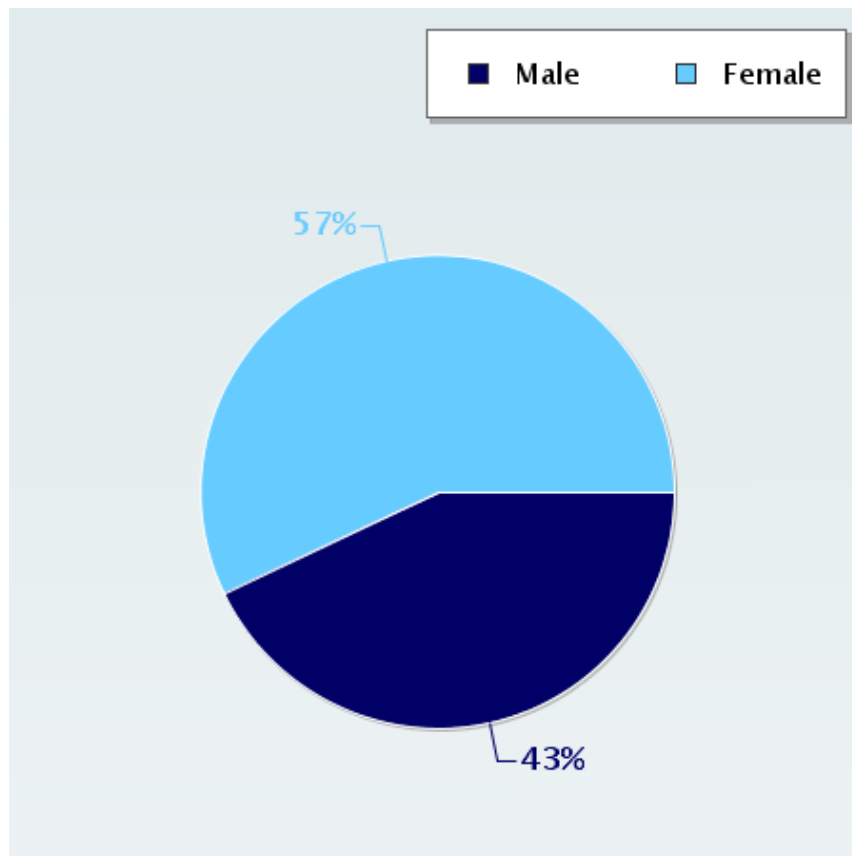

**Tags:**

**Number of Questionnaires Distributed:** 0

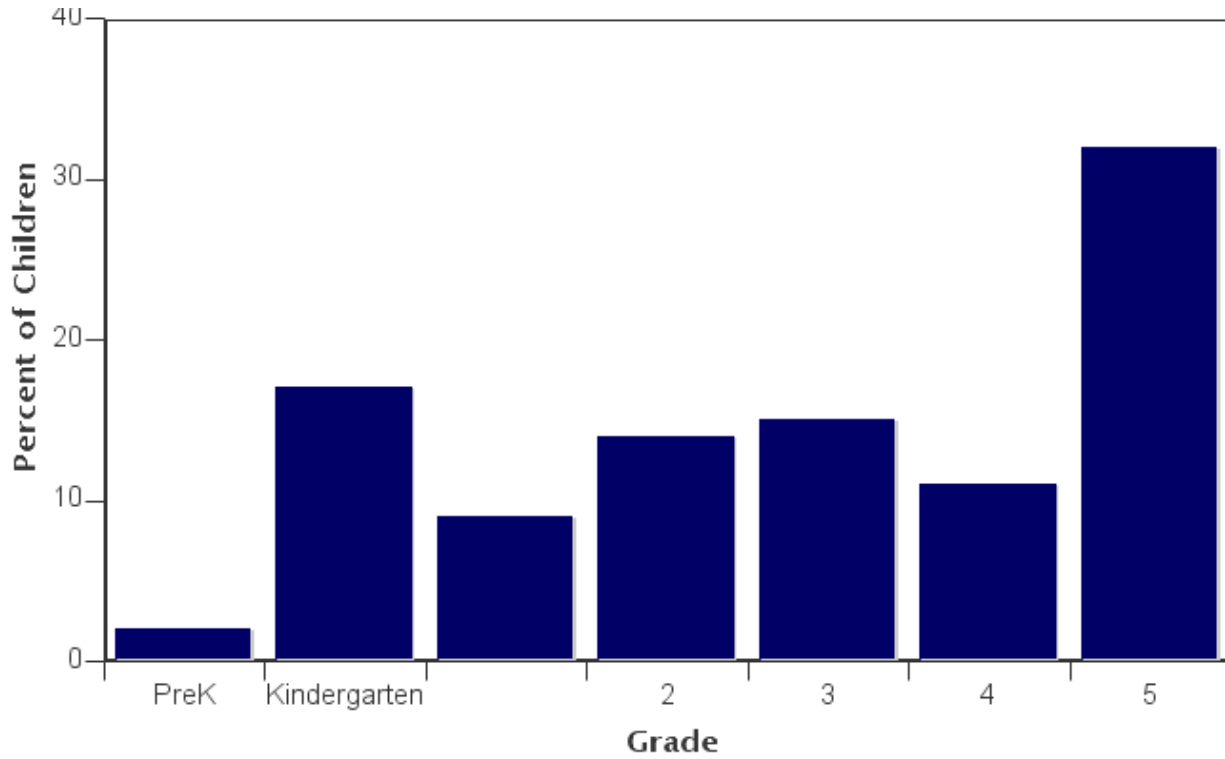

**Number of Questionnaires Analyzed for Report:** 129

This report contains information from parents about their children's trip to and from school. The report also reflects parents' perceptions regarding whether walking and bicycling to school is appropriate for their child. The data used in this report were collected using the Survey about Walking and Biking to School for Parents form from the National Center for Safe Routes to School.

Sex of children for parents that provided information

Grade levels of children represented in survey

Grade levels of children represented in survey

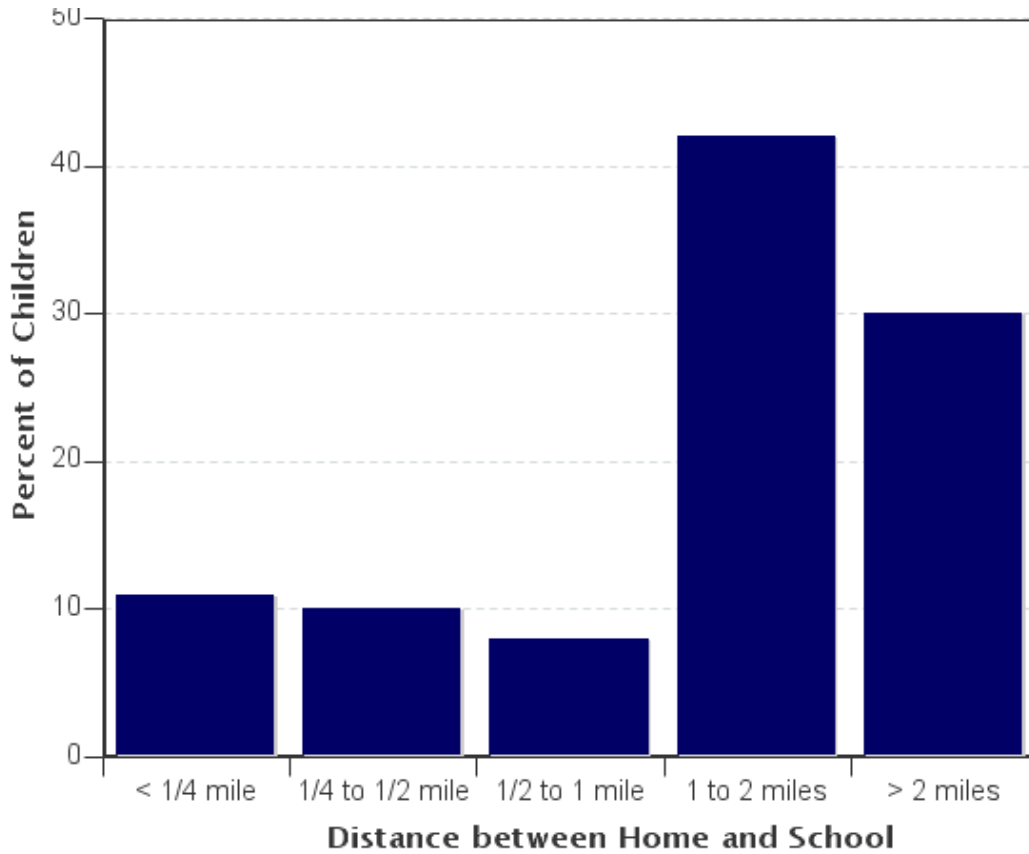

Grade in School	Responses per grade	
	Number	Percent
PreK	3	2%
Kindergarten	21	17%
1	11	9%
2	18	14%
3	19	15%
4	14	11%
5	41	32%

No response: 0

Percentages may not total 100% due to rounding.

Parent estimate of distance from child's home to school

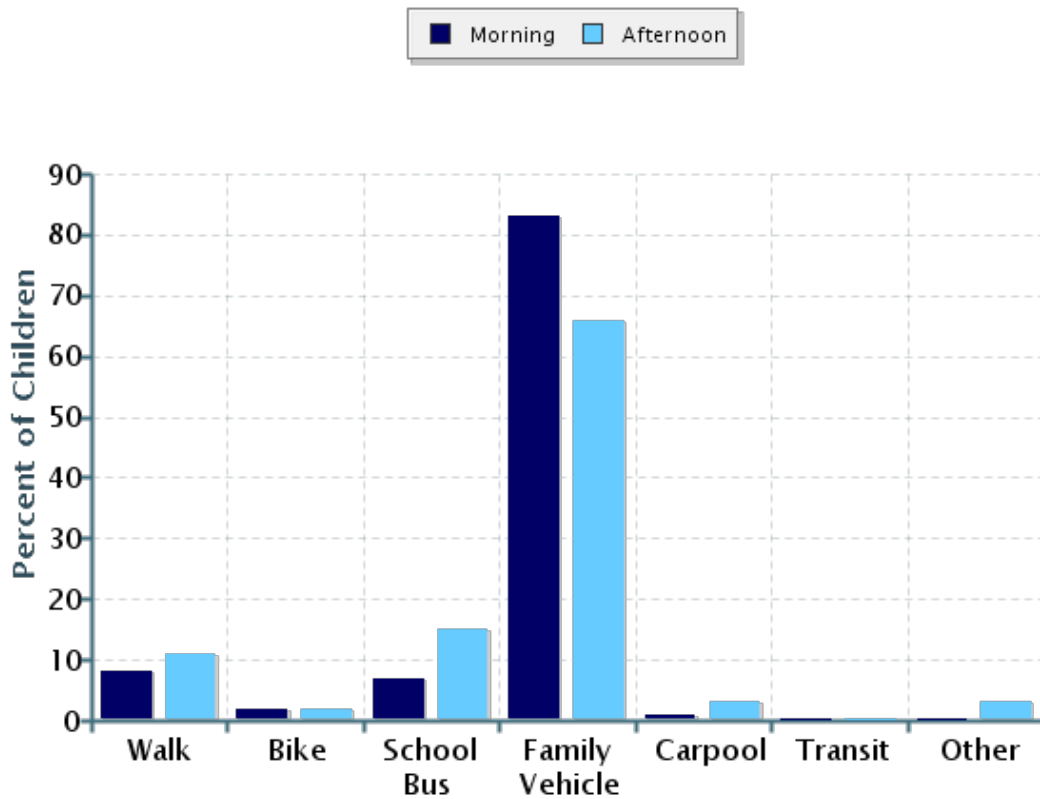

Parent estimate of distance from child's home to school

Distance between home and school	Number of children	Percent
Less than 1/4 mile	13	11%
1/4 mile up to 1/2 mile	12	10%
1/2 mile up to 1 mile	10	8%
1 mile up to 2 miles	51	42%
More than 2 miles	36	30%

Don't know or No response: 7

Percentages may not total 100% due to rounding.

### Typical mode of arrival at and departure from school

### Typical mode of arrival at and departure from school

<b>Number of Respondents per Category</b>	<b>80</b>	<b>5</b>

No response: 44

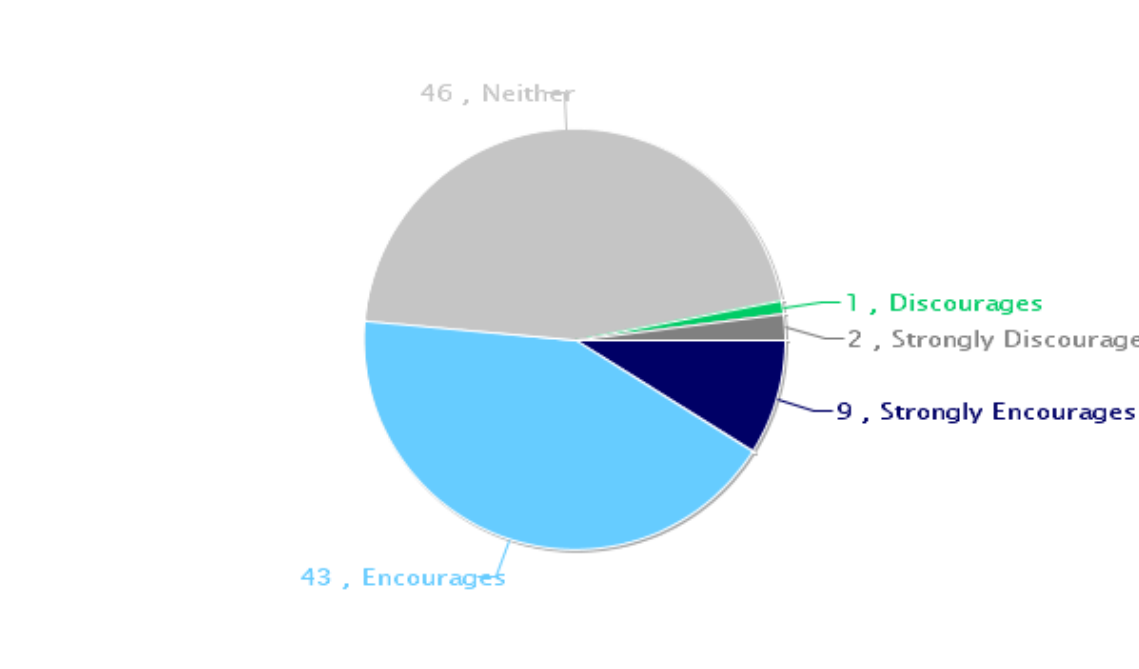

Note:

--Factors are listed from most to least influential for the 'Child does not walk/bike to school' group.

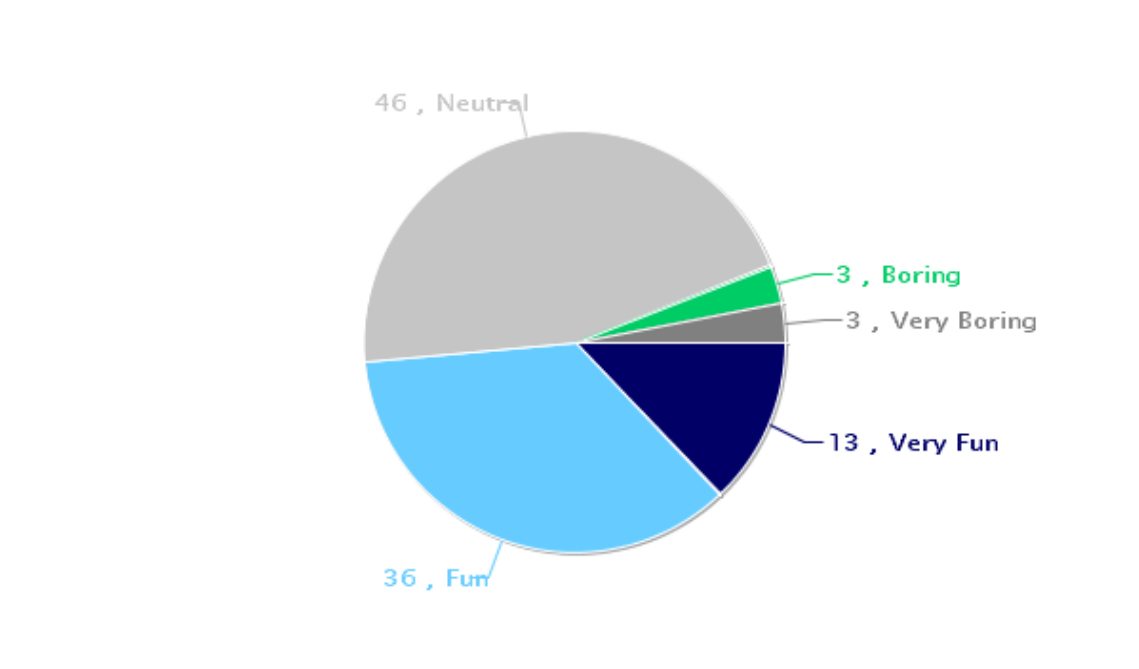

--Each column may sum to > 100% because respondent could select more than issue

--The calculation used to determine the percentage for each issue is based on the 'Number of Respondents per Category' within the respective columns (Child does not walk/bike to school and Child walks/bikes to school.) If comparing percentages between the two columns, please pay particular attention to each column's number of respondents because the two numbers can differ dramatically.

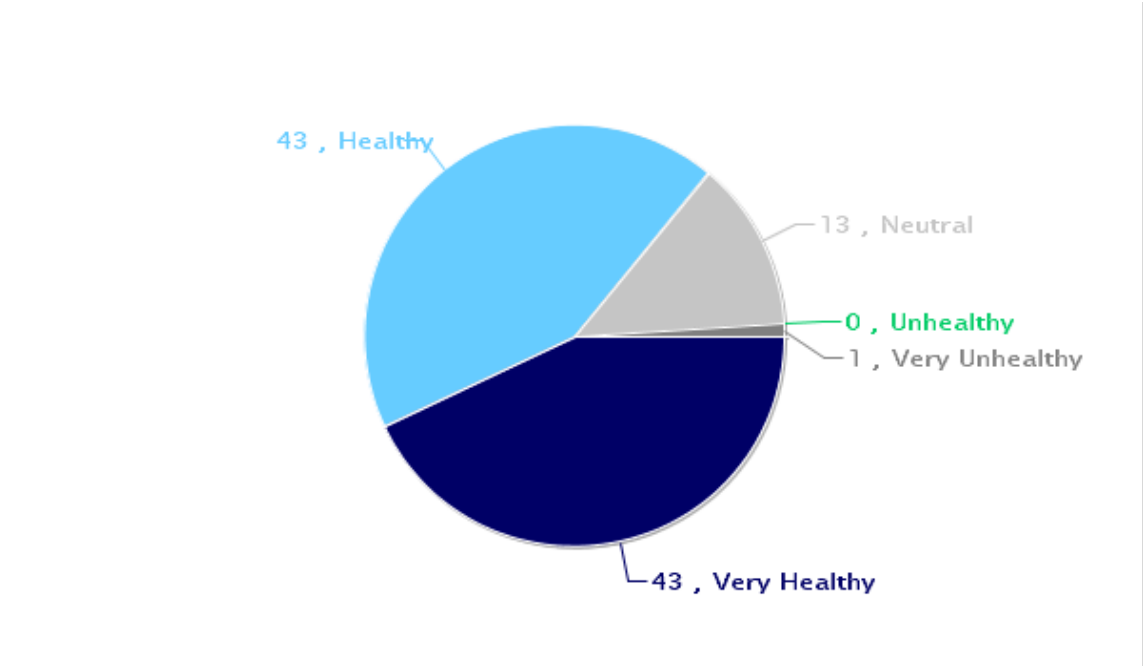

Parents' opinions about how much their child's school encourages or discourages walking and biking to/from school

Parents' opinions about how much fun walking and biking to/from school is for their child

Parents' opinions about how healthy walking and biking to/from school is for their child

## Comments Section

SurveyID	Comment
1637532	Walking/Biking is not practical for us.
1647053	There are too many busy intersections for my daughter to cross to get to school.
1646888	My child is better off not walking to school.
1636963	We are out of district. Too far to walk or bike.
1637555	It takes child less than 5 minutes to get to school when she's at dads and more than 20 minutes when she's with mom.
1637559	If we lived closer I would let her walk with me but we are too far.
1637562	Made it to 12th need more credits or tutor
1637567	Build infrastructure with the city to solve own transportation/budget problems. Please add tweakers as an option to question 10.
1637538	We are an active family. I like the idea of walking/biking to school, but the safety of my children are #1. There are too many weirdos in this world for me to feel safe leaving them alone at such a young age regardless if its a shortish distance.
1637563	I would love to have them bike/walk, but I do not trust traffic w/bicycles and the walk would take 30 minutes. Eureka drivers are the worst drivers in California.
1647009	I have both a 5th and 3rd grader at Washington. I feel they are in need of crossing guards at both four way stops by school.
1647096	All about whether it is safe or not. Cars, intersections, and crazy people. Otherwise walking to school is a great thing.
1646889	If my child was a few years older, I would consider it a more viable option.
1636904	My child has special needs and is nonverbal/ASD. Currently, it's a safety factor for walking to school. This survey does not really apply. :)
1636908	The intersection at Hodgson and W streets is very busy and confusing!
1636953	The intersction at W Street and Hodgson is so confusing for pedestrians and drivers!
1637529	Will be walking starting in Spring.
1647120	Sorry, we live close to the school, but nobody is at home. I will get off at 5:00 p.m.
1636912	Child is 50/50 custody between 2 households one on Russell Street, one on 16th Street, Both in Eureka. Child can walk/bike to/from school from Russell Street house.
1637536	Child also takes a family vehicle to school and also "other" is how they leave school.
1637531	What purpose does #15 have? How is it relevant to this survey?

1647056	The only reason why I choose not to allow walk/bike to/from school is the drug problems within Eureka and surrounding.
1647093	My son would have to cross at least 3 of the busiest streets in Eureka. I always tell him, it's not him that I believe will make a mistake, it's the drivers.
1636919	Eureka in general not safe for young kids to walk. Traffic, harmless people, not safe.
1636924	Child only walks or bikes because we live close.
1636928	Healthy but not sure how safe it is!
1636982	child only walks to school because we live very close.
1637535	Hope to see more walk to school day events!
1637589	Ningono
1637575	The intersections that concern me are Dolbeer/Harris and Dolbeer/Chester. Too many impatient/bad driver parents not paying attention when taking kids to school.
1637523	If we do bike at some point they will be with me and must get up earlier, Everding Street seems safer and so I recommend that way. I am shocked by the kids alone on Hodgson Street. :0
1637560	When he's older, the next schools are closer to where we live-otherwise, i'd love for him to be able to walk or bike.
